Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Detailed Action

1. This action is in response to remarks filed on 4/14/2005. Claims 1 – 32 are pending.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 21 and 25 – 32, drawn to a first device exchanging a key with a second device in an enclosure having a filtering material that prevents electromagnetic radiation of a particular bandwidth from escaping from the enclosure classified in **class 713, subclass 194 i.e. Tamper resistant:** subject matter wherein a physical barrier has been provided to protect a component providing cryptographic processing in a digital processing system.
 - II. Claims 22 – 24, drawn to a portable device with a Bluetooth transmitter communicates a key to a first device obtained from key exchange with a second device classified in **class 380, subclass 271 i.e., Having a receiver selection:** subject matter wherein communication is established between a transmitter and one of plural receivers.
3. Inventions I, and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such

as an apparatus and system for exchanging a key in a sealed enclosure, classified in a *different Class/Subclass*. Invention II has separate utility such as a portable device exchanging a key using a Bluetooth transmitter, classified in a *different Class/Subclass*. See MPEP 806.05(d).

1. The inventions are distinct, each from the other, because of the following reasons:

- (a) These inventions have acquired a separate status in the art as shown by their different classifications.
- (b) The search required for each Group is different and not co-extensive for examination purposes.

For example, the searches for the two inventions would not be co-extensive because these Groups would require different searches on PTO's classification class and subclass as following:

The Group I search (claims 1 – 21 and 25 – 32) would require use of search **class 713, subclass 194** (not require for the inventions II).

The Group II search (claims 22 – 24) would require use of search **class 380, subclass 271** (not require for the inventions I).

For the reasons given above restriction for examination purposes as indicated is proper.

Art Unit: 2136

2. Application is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1.17 (h).

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pramila Parthasarathy whose telephone number is 571-272-3866. The examiner can normally be reached on Tuesday – Thursday 8:00a.m. To 3:00p.m..
